

## ABSTRACT

A pant-like, prefastened, disposable absorbent article having elastic and/or extensible components to provide a Percent Fit Range of at least about 33%, more desirably about 80% to about 150%. The disposable absorbent article has prefastened fasteners to allow for easy donning of the article. After initial donning of the article, a waist size adjustment feature allows the waist perimeter dimension to be adjusted to conform the waist opening to the waist of the wearer.
